EXPERIENCE

Business Program Development Fellow

Sep 2025 – Present

Sustainable Business Network (SBN) of Massachusetts

Cambridge, MA

- Developed the Technical Assistance Pilot Program from scratch to connect local food micro-entrepreneurs with specialized consultants at affordable prices.
- Designed multi-step intake process including dual Google Forms (20+ questions each), interview framework, database management system, and memorandum of understanding template.
- Facilitated consultee interviews to identify foundational business gaps and matched businesses with consultants based on readiness, expertise alignment, and availability.

Big Data Bowl Mentorship Program

Oct 2025 – Present

National Football League (NFL)

Remote

- 1 of 18 students selected from 500+ applicants.
- Working with NFL analytics mentors to analyze player tracking data for 2026 Big Data Bowl competition.

Undergraduate Research Fellow

Jun 2025 – Jul 2025

Carnegie Mellon University - Statistics & Data Science | [Capstone Project](#)

Pittsburgh, PA

- 1 of 16 students selected for a fully funded 8-week research program.
- Developed machine learning models to predict pressing effectiveness in professional soccer using 252,646 sequences from 502 MLS matches, using 10Hz player tracking data provided by SkillCorner.
- Oral presentation at the Carnegie Mellon Sports Analytics Conference 2025.

Data Analytics: Qualitative & Quantitative Insights Extern

Mar 2025 – Jun 2025

Beats by Dr. Dre | [Capstone Project](#)

Remote

- Analyzed 4,500+ consumer survey responses and scraped product reviews using Python (Pandas, NumPy, TextBlob) and AI tools (Claude, Gemini) to identify market opportunities, purchase drivers, and feature preferences for wireless speaker product launch.
- Delivered strategic assessment recommending \$150-250 price point based on consumer insights, demographic segmentation, sentiment analysis, and competitive gap analysis.

Undergraduate Researcher

Sep 2024 – Nov 2024

Centre College | [Capstone Project](#)

Danville, KY

- Built RShiny dashboard analyzing shot data for Centre College Division III women's soccer team.
- Poster presentation at the Carnegie Mellon Sports Analytics Conference 2024.

PROJECTS

National Olympic Performance: Analyzing Economic, Demographic, and Historical Determinants of Summer Olympics Medal Counts

Stata | [View](#)

Sep 2024 - Dec 2024

- Conducted econometric analysis of 716 observations across four Summer Olympics using panel data regression to identify determinants of national medal counts, achieving 97.6% explanatory power.
- Implemented country fixed effects and tested multiple functional forms to address omitted variable bias and ensure robust statistical results.

Cincinnati Reds Baseball Analytics Student Hackathon | R | [View](#)

Jan 2025 – Feb 2025

- Predicted MLB player playing time using 2.1 million pitch-by-pitch observations and machine learning models to forecast plate appearances and batters faced.
- Analyzed player performance metrics, injury history, and usage patterns from Baseball Savant data to develop roster-agnostic playing time predictions.

TECHNICAL SKILLS

R, Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, Stata, Tableau, Power BI, Git/GitHub, RShiny, Excel
