EDUCATION

Centre College <i>Bachelor of Science in Economics & Finance (Major), Data Science (Minor)</i>	2022 – May 2026 <i>Danville, KY</i>
- Cumulative GPA: 3.62 Major GPA: 3.81 - Relevant Coursework: Modern Calculus 1, Econometrics, Intro to Management, Data Visualization, Programming and Problem Solving, Economics of College Sports, Statistical Modeling, Managerial Finance, Data Analysis and Communication. - Leadership & Activities: Track and Field Student-Athlete Resident Assistant Vice President: Centre Brother-to-Brother Club.	

EXPERIENCE

Fellow <i>Sustainable Business Network (SBN) of Massachusetts</i>	Sep 2025 – Present <i>Cambridge, MA</i>
- Developing the Technical Assistance Pilot Program from scratch to connect local food businesses with consultants at affordable prices. - Designed dual intake forms, process flowcharts, memorandum of understanding template, and database management system.	
Big Data Bowl Mentorship Program <i>National Football League (NFL)</i>	Oct 2025 – Present <i>Remote</i>
1 of 18 students selected from 500+ applicants. - Working with NFL analytics mentors to analyze player tracking data to develop football analytics insights for 2026 Big Data Bowl competition submission.	
Undergraduate Research Fellow <i>Carnegie Mellon University - Statistics & Data Science Capstone Project</i>	Jun 2025 – Jul 2025 <i>Pittsburgh, PA</i>
1 of 16 students selected for a fully funded 8-week research program. - Developed machine learning models to predict pressing effectiveness in professional soccer using 252,646 sequences from 502 MLS matches, using 10Hz player tracking data provided by SkillCorner. - Oral presentation at the Carnegie Mellon Sports Analytics Conference 2025.	
Data Analytics: Qualitative & Quantitative Insights Extern <i>Beats by Dr. Dre Capstone Project</i>	Mar 2025 – Jun 2025 <i>Remote</i>
- Analyzed 4,628 consumer survey responses and scraped product reviews using Python (Pandas, NumPy, TextBlob) and AI tools (Claude, Gemini) to identify market opportunities, purchase drivers, and feature preferences for wireless speaker product launch. - Delivered strategic assessment recommending \$150-250 price point based on consumer insights, demographic segmentation, sentiment analysis, and competitive gap analysis.	
Undergraduate Researcher <i>Centre College Capstone Project</i>	Sep 2024 – Nov 2024 <i>Danville, KY</i>
- Built RShiny dashboard analyzing shot data for Centre College Division III women's soccer team. - Poster presentation at the Carnegie Mellon Sports Analytics Conference 2024.	

PROJECTS

National Olympic Performance: Analyzing Economic, Demographic, and Historical Determinants of Summer Olympics Medal Counts <i>Stata View</i>	Sep 2024 - Dec 2024
- Conducted econometric analysis of 716 observations across four Summer Olympics using panel data regression to identify determinants of national medal counts, achieving 97.6% explanatory power. - Found hosting status, number of athletes, and health expenditure significantly predict Olympic success. - Implemented country fixed effects and tested multiple functional forms to address omitted variable bias and ensure robust statistical results.	
Cincinnati Reds Baseball Analytics Student Hackathon R View	Jan 2025 – Feb 2025
- Predicted MLB player playing time using 2.1 million pitch-by-pitch observations and machine learning models to forecast plate appearances and batters faced. - Analyzed player performance metrics, injury history, and usage patterns from Baseball Savant data to develop roster-agnostic playing time predictions.	

TECHNICAL SKILLS

R, Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, Stata, Tableau, Power BI, Git/GitHub, RShiny, Excel
